CORRECTION

In the original handout on page 0-4 the recipe for finding outliers was

Outliers - WRONG RECIPE

Lower fence: Median $-$ 1.5×IQR
Lower fence: Median $-$ 1.5×IQR
- Data outside the fences are outliers
- Sometimes 3 is used instead of 1.5

Please change this in your notes to the following:

Outliers -RIGHT RECIPE

Lower fence: Q1 $-$ 1.5×IQR
Upper fence: Q3 $+$ 1.5×IQR
- Data outside the fences are outliers
- Sometimes 3 is used instead of 1.5
