36-201: Statistical Reasoning

Where's *MINITAB*

I. Availability in Clusters

A. The H&SS BH 239 Macintosh cluster is open for public use:

Day	Times
Sunday	12:00 PM - 5:00 PM
Monday	8:30 AM - 12:00 AM
Tuesday	8:30 AM - 3:30 PM; 4:30 PM - 8:00 PM; 9:00 PM - 12:00 AM
Wednesday	8:30 AM - 10:30 AM; 3:30 PM - 12:00 AM
Thursday	8:30 AM - 9:30 AM; 3:30 PM - 8:00 PM
Friday	8:30 AM - 10:30 AM; 3:30 PM - 5:00 PM
Saturday	CLOSED (until further notice)

B. The following Macintosh clusters have *MINITAB* 10.5Xtra (the one we use in our labs):

`Hunt`	`MMP`	`CyH100`	`MG/WW`	`MI320A`
`x`	`x`	`x`	`x`	`x`

C. The following PC clusters have *MINITAB* release 12 available:

`CyH100`	`BH140E`	`BH140C`	`BH140F`	`CFA317`	`WeH5207`	`MI320a`
`x`	`x`	`x`	`x`	`x`	`x`	`x`

D. The following webpage contains links to pages containing lists of what software is in which cluster: http://www.cmu.edu/acs/softweb/cluster.software.html

II. To purchase *MINITAB*

The CMU computer store is out of stock right now, but it can be ordered and delivered in 7-10 days. The cost for the version that runs on a PC (Windows) (release 12) I am told is $67.00. It is also reported that the computer store sells version 10.5Xtra that runs on the Macintosh, but I don't have a price.

III. How to Access the H&SS Server Using a Windows Machine

The following are the steps I followed to access the H&SS server hsshelios using a Windows NT machine. I presume to do this using Windows 95 is very similar.

Select **Network Neighborhood→Entire Network →Microsoft Windows Network→ HSSComputing→HSSHELIOS**

You then need to use your course id: 36201 and your course password: 36201 to get access to the folder called *Class* and then to the course datafiles.
