

note on midterm grades.txt

I have calculated mid-semester grades and submitted them to the hub.

* I did not count the diagnostic quiz at all in your grade.

* The weights I used were:

WORK	MIDSEM %	FINAL%
HW	= 36%	20%
Exam 1	= 28%	15%
Exam 2	= 0%	15%
Partic	= 18%	10%
Projects I.1-I.4	= 9%	5%
Projects II.5-II.6	= 9%	5%
Projects part III	= 0%	30%

Everyone got 100/100 for participation (incl citizenship in your groups, participation in class, etc.). I will probably assign some scores less than 100 in the 2nd half of the semester.

Your HW average, exam score, partic, and team project averages, were weighted using the MIDSEM %'s above, to produce a midsemester score, between 0 and 100 points.

Undergraduates were given letter grades as follows:

midsem score	letter grade	how many given
90-100	A	18
80-89	B	13
70-79	C	1
55-69	D	2
0-54	R	1

Graduate students were graded separately and should talk to me if they have questions about their grades.

Not all of the scores for team project assignments are up on blackboard yet; Jionglin or I will let you know as soon as all the scores are posted. In the meantime, if you have any questions about your grade, please contact me.

I will send each team a limited amount of individual feedback on team project assignments II.5b and II.6 in the next few days.

hope you're having a great spring break,

-BJ
