Revised schedule for Sept 19 and 21 lectures/assignments

Hi all,

I thought it was good to spend time beginning a real analysis of the heights data in class yesterday, but it changes our plans for next week.

Quiz on Monday: will cover 6.4, 6.5, 6.6

Monday I will talk about added variable plots, marginal model plots from Ch 6 of Sheather (so, mostly stuff from lecture 6 that I didn't do yesterday!)

Weds I will talk about stuff related to sect 6.6, 7.1 and 7.2 in Sheather

The hw assignments do not change.

Onward!!

cheers,

-BJ
